functional js

wesen@ruinwesen.com

overview

patterns

usage examples

overview

code, not data

overview

lisp, ml, scheme, haskell

... js

overview

lambda calculus

alonzo church

overview

functions as first order objects

advantages

abstraction

expressiveness

fun

disadvantages

data centric world

disadvantages

compiler support

performance

patterns

iteration

map

tree walker

folding data

reduce / fold

searching

find

remove

filter

callbacks

function generators

curry

not, etc...

composing functions

compose

continuation passing

long running computations

recursive programming

pattern matching

modules

data encapsulation

usage examples

functional.js

DOM generation
in MochiKit

JS modules

jquery chains

??
